

Obstetrics and Gynecology Doctor results in Los Angeles, CA 90059

Find out more about the doctors and services listed in the Cigna directory and [important state and federal notices and disclosures](#).

The search results may not contain all the contracted providers in your area. For a full results listing, please [view the results on the Cigna Directory](#).

Directory Last Updated: 06/30/2023

This directory information is updated six days per week, excluding holidays, Sundays, or interruptions due to system maintenance, upgrades or unplanned outages. This information is subject to change at any time. Providers may delay informing Cigna that they no longer accept new patients so we cannot guarantee that each provider is still accepting new patients. When calling to make your appointment, please confirm that the provider is a Cigna participating provider. Call Cigna Customer Service 24/7 /365 at the toll-free number on the back of your Cigna ID card for additional directory assistance including help locating a network provider for services and appointment assistance, confirming provider participation, and assistance generating a provider listing or obtaining a printed copy of the current provider directory.

Physician Quality and Cost Efficiency ★★★

The Physician Quality and Cost Efficiency Profiles are intended to provide information that can assist individuals in health care decision-making. This information is a partial assessment of physician quality and cost-efficiency. It should not be used as the sole basis for decision-making as such measures have a risk of error. Individuals with Cigna coverage are encouraged to consider all relevant information and to speak with a provider before scheduling treatment.

Source of Information and Frequency of Validation

Medical health care provider information addressing board certification, state licensure and hospital affiliations is obtained from an application that is completed and signed by the health care provider or facility during credentialing, as applicable. Physician board certification is verified through the American Board of Medical Specialties (ABMS) or American Osteopathic Association (AOA). This information is updated when the medical health care provider or facility notifies Cigna of changes, or at least every three years.

Some health care providers share with Cigna or a third-party vendor the various languages spoken in their offices, and Cigna publishes that information in this directory. The languages listed are not guaranteed by Cigna and are not meant to meet any state or federal laws. Please call the health care provider to confirm the current languages spoken in their office.

Cigna Care Designation

Cigna Care Designation (CCD) distinguishes network physicians who practice in one of the specialties reviewed and who meet certain quality and cost-efficiency measures. Provider quality results are assessed annually with updates displayed starting October 1 through December 31, with an effective date of January 1st. As a result, tier designations may change. Learn more about the [Cigna Care Designation](#).

Provider Network Selection Criteria

Cigna contracts with physicians, physician groups, dental healthcare providers professionals, associations and delivery systems, hospitals, ancillary practitioners, and facilities so that our customers can obtain the care they need at a more affordable cost. To build our networks, including marketplace networks, we look at how many primary and specialty care doctors are in a specific area. We also look at hospitals and other health care providers. This way we can make sure there are enough health care providers available to meet your health care needs so that you don't have to go a long way or spend a lot of time getting there. All doctors and hospitals must meet certain credentialing requirements and agree to rates with us before joining our network. We don't use measures related to quality, member experience, patient safety or cost to select providers.
